

*Opportunities  
for Talents*

The **Technical University of Munich (TUM)** invites applications for the position of

## **Full Professor in » Structural Analysis «**

to begin in winter semester 2024/25. The position is a tenured W3 position.

### **Scientific Environment**

The professorship will be assigned to the Department of Civil and Environmental Engineering at the TUM School of Engineering and Design.

### **Responsibilities**

The responsibilities include research and teaching as well as the promotion of early-career scientists. We seek to appoint an expert in the research area of Structural Analysis with a focus on fundamental research on static and dynamic analysis of civil engineering structures and their interaction with the environment, numerical simulation methods and modeling. Teaching responsibilities include courses in the university's bachelor and master programs, in particular in Civil Engineering and Computational Mechanics.

### **Qualifications**

We are looking for candidates with an exceptional international research and teaching reputation and an established academic record through an internationally recognized research program. A university degree and an outstanding doctoral degree or equivalent scientific qualification, as well as pedagogical aptitude, including the ability to teach in English, are prerequisites. Substantial research experience abroad as well as the full commitment to do interdisciplinary research is expected. The successful candidate shows the proven ability and experience in science management and in leadership, and to attract third-party funding (DFG, EU, AiF).

### **Our Offer**

TUM provides excellent working conditions in a lively scientific community, embedded in the vibrant research environment of the Greater Munich Area. The TUM environment is multicultural, with English serving as a common interface for scientific interaction.

TUM offers attractive and performance-based salary conditions and social benefits.

The TUM Munich Dual Career Office (MDCO) provides tailored career consulting to the partners of newly appointed professors. The MDCO assists the relocation and integration of new professors, their partners and accompanying family members.

### **Your Application**

TUM is an equal opportunity employer and explicitly encourages applications from women. The position is suitable for disabled persons. Disabled candidates with essentially the same qualifications and scientific performance as other candidates will be given preference.

Application documents should be submitted in accordance with TUM's application guidelines for professors. These guidelines and detailed information about the TUM Faculty Recruitment and Career System are available at [www.tum.de/faculty-recruiting](http://www.tum.de/faculty-recruiting). Here you will also find TUM's information on collecting and processing personal data as part of the application process.

Please send your application no later than **3rd March 2023** to the **Dean of the TUM School of Engineering and Design**, Prof. Christoph Gehlen. **Email address for applications: [faculty-recruitment@ed.tum.de](mailto:faculty-recruitment@ed.tum.de).**
